

Easy Spells to Fool Muggles

A book containing Beginner-level Bewitchment spells

Aura of Kindness

Beginner-level Illusion (Bewitchment)

Spell Type: Instant
Incantation: *amicus*
Duration 1 hour
Range Close

This spell creates an aura of kindness and warmth around you. If the target is not overtly hostile, this causes them to like you: charisma checks by the caster on the individual get a +1 bonus for the duration of the spell.

Gain an additional +1 bonus for every additional casting-level dedicated to this spell

Blur

Beginner-level Illusion (Bewitchment)

Spell Type: Instant
Incantation: *celeritate*
Duration 3 turns
Range Wandtip

The target of this spell (which may be the catser) seems to become blurry around the edges, it is difficult to tell exactly where they are, and where they aren't. Gain a +2 bonus to Dodge for the duration.

Glamour

Beginner-level Illusion (Bewitchment)

Spell Type: Instant
Incantation: *lux stultium*
Duration 1 hour
Range Close
Resist: Observation

Create a superficial glamour around a person or object, a simple magical hologram which sits on top of the true surface. This hologram takes any form you desire, but can only perform minor movements – an illusion over the face of a target may open its mouth as the target does, but nothing more complex than this.

The glamour disintegrates upon physical or magical contact, and can be seen to be fake if observer succeeds on a Resist check.

Hypnotic Lights

Beginner-level Illusion (Bewitchment)

Spell Type: Instant
Incantation: *fascum*
Duration 1 minute
Range Sight
Resist: Intelligence

Multicoloured, iridescent orbs dance in the sky, fascinating up to 1d4 creatures that see them, if they fail a DV 8 Resist check. These creatures cannot remove their gaze from the orbs, and will stop all other actions for the duration of the hypnotism. Every time the hypnotised beings take damage, they may attempt to Resist.

Throw Voice

Beginner-level Illusion (Bewitchment)

Spell Type: Focus
Incantation: *ventrilofors*
Range Close

Cast your voice such that it appears to be coming from somewhere up to 15 metres away from your actual position.
